

# Patient Portal

**We are excited to share your patient records with you through our patient portal!**

The patient portal is one more way we are partnering with you to make it easier to access and understand your health. You can see test results and appointments from anywhere and at any time. We will also update you on how we are doing at GDCHC to provide you with high quality clinical care.

To access online you can use the web portal at <https://health.healow.com/gdchc> or the [Healow](#) phone app using our unique practice code: **AGDBBA**

Please call if you need any assistance or information that is not available at this time.

**Portal help line: (203) 743-0100**

Please note:

The Patient Portal is not used for Prescription re-fills. Please contact your Pharmacy to submit a refill request.
