It's All About You!

Patient-Centered Medical Home Advantages:

☑️ A team that gets to know you and your history to offer you your best health options through evidence based care.

☑️ A team that treats you as a full partner in your care and explains all care options until you are comfortable.

☑️ Coordinated care across different settings to connect all members of your team, including specialists and behavioral health providers.

☑️ Assistance from Eligibility Staff to get health insurance or discounted costs with our Health Center’s Sliding Fee Scale Program.

☑️ Equal access to care for all patients regardless of the source of payment.

☑️ Access to care or clinical advice at all hours, even when the office is closed.

☑️ Education for you and your family members as needed to support your health care needs.

What is a Medical Home?
When you are sick or need a routine check-up, a caring, familiar face can make all the difference. At the Greater Danbury Community Health Center (GDCHC) nothing is more important to us than providing you with life-long care for wellness of your mind, body and spirit.

Your Primary Care Provider (PCP) and an extended team of health professionals build a relationship with you and your family focusing on your medical history and your health care concerns.

Who's on my team?
Your Primary Care Provider (PCP) at the Greater Danbury Community Health Center leads your team of health care professionals to ensure your continuity of care. Choosing your "PCP" is very important to your health care.

All staff at the Greater Danbury Community Health Center are dedicated to helping you find the right PCP for your needs. Ask how we can help.

- X-Rays/Fillings

My Role in My Team
You are the most important member of your Medical Home Team. The more active you are in your health the more we can achieve as a team!

- Your Medical-Home "Care Team" provides self-management care support. This means tell your care team if you are having trouble sticking with your care plan. We will make changes together to make your health goals be successful.

- Ask us questions. If you do not understand information we give you, we will be happy to explain it in a different way.

- Be open and honest about your health concerns and challenges so, we can investigate all options.

- Assist our Front Desk Registrars to get copies of your medical records transferred to our office to make sure that your "PCP," Primary Care Provider, can review a complete picture of your health history.

- When you get care or tests from other specialists or health professionals, always tell your Medical Home Team at GDCHC so we can update your medical history and give you the best care possible.
